ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing elsewhere in this transition report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to those discussed below and elsewhere in this Transition report. Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

On February 16, 2016, our sole director approved a change in the Company's fiscal year from September 30 to December 31. The results discussed below reflect the three-month period from October 1, 2014 to December 31, 2014 and the three-month period from January 1, 2015 to December 31, 2015.

RESULTS OF OPERATIONS

We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

Our net loss for the three-month period ended December 31, 2015 was \$22,460 compared to a net loss of \$3,050 during the three-month period ended December 31, 2014. Our general and administrative expenses represent fees paid for legal and accounting services in connection with our public company reporting obligations. We did not generate any revenue during these periods.

Liquidity And Capital Resources

We expect we will require additional capital to meet our long term operating requirements. We expect to finance our operations through advancements, the sale of equity or debt securities until we consummate a business combination. We currently have a limited amount of cash, and will need additional capital in order to continue operating. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

The independent auditors' report accompanying our financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

As of December 31, 2015 our total assets were \$3,191 compared to \$6,300 in total assets at September 30, 2015. As of December 31, 2015, our current liabilities were \$22,768, compared to \$3,417 in current liabilities at September 30, 2015.

As of September 30, 2015, total assets were comprised of \$3,191 in cash and total liabilities were comprised of \$8,300 in accounts payable and accrued liabilities and \$14,468 in related party payables. As of September 30, 2015, total assets were comprised of \$5,700 in cash and \$600 in prepaid expenses and total liabilities were comprised of \$3,417 in related party payables.

Stockholders' equity was \$2,883 as of September 30, 2015 compared to stockholders' deficit to \$19,577 as of December 31, 2015.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the three months ended December 31, 2015, cash flows used in operating activities was \$13,560 due to a net loss of \$22,460, a \$600 decrease in prepaid expenses and a \$8,300 increase in accounts payable and accrued liabilities. Cash flows used in operating activities was \$3,350 for the three months ended December 31, 2014 due to a net loss of \$3,050 and a \$300 decrease in accounts payable and accrued liabilities.

Cash Flows from Financing Activities

For the three months ended December 31, 2015, cash flows provided by financing activities was \$11,051, representing proceeds from an advance by our majority stockholder. For the three months ended December 31, 2014, cash flows used in financing activities was \$4,000, representing proceeds from an issuance of common stock.

MATERIAL COMMITMENTS

As of the date of this Transition report, we do not have any material commitments.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Transition report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

WWC, P.C. CERTIFIED PUBLIC ACCOUNTANTS

To: The Board of Directors and Stockholders of
Punto Group, Corp.

We have audited the accompanying balance sheet of Punto Group, Corp. as of December 31, 2015 and the related statement of operation, comprehensive loss, stockholders' deficiencies, and cash flows for the three-month period ended December 31, 2015. Punto Group, Corp.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Punto Group, Corp. as of December 31, 2015, and the results of its operations and its cash flows for the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company had incurred substantial losses in previous years, which raises substantial doubt about its ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 2. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. NATURE OF OPERATIONS

Punto Group, Corp. (the "Company") is a for profit corporation established under the corporation laws in the State of Nevada, United States of America on September 2, 2014.

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars. The Financial Statements and related disclosures as of December 31, 2015 are audited pursuant to the rules and regulations of the United States Securities and Exchange Commission ("SEC").

Unless the context otherwise requires, all references to "Punto Group, Corp.," "we," "us," "our" or the "company" are to Punto Group, Corp. and any subsidiaries.

2. BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The statements and related notes have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements and other information included in the Company's Annual Report on Form 10-K for the fiscal period ended December 31, 2015, as filed with the SEC.

Going Concern

The accompanying financial statements and notes have been prepared assuming that the Company will continue as a going concern. For the period ended December 31, 2015, the Company had accumulated deficits of \$49,377. The Company's ability to continue as a going concern is dependent upon the Company's ability to generate sufficient revenues to operate profitably or raise additional capital through debt financing and/or through sales of common stock.

Management plans to fund operations of the Company through the proceeds from an offering pursuant to a Registration Statement on Form S-1 or private placements of restricted securities or the issuance of stock in lieu of cash for payment of services until such a time as profitable operations are achieved. There are no written agreements in place for such funding or issuance of securities and there can be no assurance that such will be available in the future. Management believes that this plan provides an opportunity for the Company to continue as a going concern.

The failure to achieve the necessary levels of profitability or obtain the additional funding would be detrimental to the Company.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Due to the limited level of operations, the Company has not had to make material assumptions or estimates other than the assumption that the Company is a going concern.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Fair Value of Financial Instruments

ASC 825, "Disclosures about Fair Value of Financial Instruments", requires disclosure of fair value information about financial instruments. ASC 820, "Fair Value Measurements" defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of December 31, 2015.

The respective carrying values of certain on-balance-sheet financial instruments approximate their fair values. These financial instruments include cash, accrued liabilities and notes payable. Fair values were assumed to approximate carrying values for these financial instruments since they are short term in nature and their carrying amounts approximate fair value.

Basic and Diluted Loss Per Share

The Company computes earnings (loss) per share in accordance with ASC 260-10-45 "Earnings per Share", which requires presentation of both basic and diluted earnings per share on the face of the statement of operations. Basic earnings (loss) per share is computed by dividing net earnings (loss) available to common stockholders by the weighted average number of outstanding common shares during the period. Diluted earnings (loss) per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive earnings (loss) per share excludes all potential common shares if their effect is anti-dilutive. The Company has no potential dilutive instruments, and therefore, basic and diluted earnings (loss) per share are equal.

Punto Group, Corp.
Notes to Financial Statements
As of and for the three-month period ended December 31, 2015
and year ended September 30, 2015
(Stated in U.S. Dollars)

Revenue Recognition

The Company will recognize revenue in accordance with Accounting Standards Codification No. 605, "Revenue Recognition" ("ASC-605"). ASC-605 requires that four basic criteria must be met before revenue can be recognized:

1. Persuasive evidence of an arrangement exists
2. Delivery has occurred
3. The selling price is fixed and determinable
4. Collectability is reasonably assured.

Determination of criteria (3) and (4) are based on management's judgment regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, or other adjustments are provided for in the same period the related sales are recorded. The Company will defer any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required.

Recent Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

Comprehensive Income

Comprehensive income consists of net income and other gains and losses affecting stockholders' equity that, under U.S. GAAP, are excluded from net income. There was no recorded comprehensive income or loss for the three-months periods ended December 31, 2015 and 2014.

Basic and Diluted Net Loss Per Share

Our computation of earnings per share ("EPS") includes basic and diluted EPS. Basic EPS is measured as the income (loss) available to common stockholders divided by the weighted average common shares outstanding for the period. Diluted income (loss) per share reflects the potential dilution, using the treasury stock method, that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the income (loss) of the Company as if they had been converted at the beginning of the periods presented, or issuance date, if later. In computing diluted income (loss) per share, the treasury stock method assumes that outstanding options and warrants are exercised and the proceeds are used to purchase common stock at the average market price during the period. Options and warrants may have a dilutive effect under the treasury stock method only when the average market price of the common stock during the period exceeds the exercise price of the options and warrants. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

Punto Group, Corp.
Notes to Financial Statements
As of and for the three-month period ended December 31, 2015
and year ended September 30, 2015
(Stated in U.S. Dollars)

Income (loss) per common share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the respective periods. Basic and diluted (loss) per common share is the same for periods in which the company reported an operating loss because all warrants and stock options outstanding are anti-dilutive.

There were no adjustments to net loss required for purposes of computing diluted earnings per share.

For the three-month periods ended December 31, 2015 and 2014, there were no potential dilutive securities.

Recently Issued Accounting Pronouncements

In June 2014, the FASB issued ASU 2014-10, "Development Stage Entities (Topic 915): Elimination of Certain Financial Reporting Requirements". ASU 2014-10 eliminates the distinction of a development stage entity and certain related disclosure requirements, including the elimination of inception-to-date information on the statements of operations, cash flows and stockholders' equity. The amendments in ASU 2014-10 will be effective prospectively for annual reporting periods beginning after December 15, 2014, and interim periods within those annual periods, however early adoption is permitted. The Company adopted ASU 2014-10 during the quarter ended June 30, 2014, thereby no longer presenting or disclosing any information required by Topic 915.

On August 27, 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern", which provides guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. The ASU applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2014-15 on its results of operations or financial condition.

Other accounting pronouncements did not or are not believed by management to have a material impact on the Company's present or future financial statements.

4. RELATED PARTY TRANSACTIONS

The director of the Company provides services free of charge. The Company's sole officer and director is involved in other business activities and may in the future, become involved in other business opportunities as they become available.

During the period ended December 31, 2015 and 2014, the Company's stockholders provided net advances of \$11,051 and \$0, respectively, to finance the Company's working capital requirements.

The outstanding advances from stockholders totaled \$14,468 and \$3,417 as of December 31, 2015 and 2014, respectively. These advances are unsecured, due on demand, and non-interest bearing.

5. SUBSEQUENT EVENTS

The Company has evaluated subsequent events from December 31, 2015 through the date the financial statements were available to be issued. On February 16, 2016, the sole director approved a change in the Company's fiscal year end from September 30 to December 31.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

(a) Dismissal of Independent Registered Public Accounting Firm

On February 16, 2016, with the approval of its sole director, the Company dismissed Hillary CPA Group (“Hillary”) as its independent registered public accounting firm.

During the period from October 16, 2014 (the date Hillary was engaged) through the dismissal of Hillary on February 16, 2016, Hillary did not issue an audit report on our financial statements containing an adverse opinion or disclaimer of opinion, nor did Hillary issue a report that was qualified or modified as to uncertainty, audit scope or accounting principles. During the period from October 16, 2014 (the date Hillary was engaged) through the dismissal of Hillary on February 16, 2016, there were no disagreements between us and Hillary on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to Hillary’s satisfaction, would have caused Hillary to make reference in connection with Hillary’s opinion to the subject matter of the disagreement; and there were no “reportable events” as the term is described in Item 304(a)(1)(v) of Regulation S-K.

The Company provided Hillary with a copy of this Form 8-K prior to its filing with the SEC and requested that Hillary furnish the Company with a letter addressed to the SEC that provides that Hillary agrees with the statements made above. A copy of Hillary’s letter dated February 17, 2016 is attached as Exhibit 16.1 to this Form 8-K.

(b) Engagement of Independent Registered Public Accounting Firm

On February 16, 2016, with the approval of its sole director, the Company engaged WWC, Professional Corporation (“WWC”) as its new independent registered public accounting firm.

During the period from October 1, 2014 to September 30, 2015 and through the subsequent interim period prior to the Company’s engagement of WWC, the Company did not consult with WWC on either (1) the application of accounting principles to a specified transaction, either completed or proposed, (2) the type of audit opinion that may be rendered on the Company’s financial statements; or (3) any matter that was either the subject of a disagreement, as defined in Item 304(a)(1)(iv) of Regulation S-K, or a reportable event, as defined in item 304(a)(1)(v) of Regulation S-K. In addition, WWC did not provide any written or oral advice to the Company that WWC concluded was an important factor considered by the Company in reaching a decision as to any accounting, auditing or financial reporting issue.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our Chief Executive Officer (the “Certifying Officer”), we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on the foregoing, our Certifying Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Report.

Disclosure controls and procedures are controls and other procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our Certifying Officer or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

Management’s Report on Internal Controls Over Financial Reporting

As required by the SEC rules and regulations for the implementation of Section 404 of the Sarbanes-Oxley Act, our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our consolidated financial statements for external reporting purposes in accordance with GAAP. Our internal control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of our company,
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect errors or misstatements in our consolidated financial statements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of our internal control over financial reporting at December 31, 2015 and 2014. In making these assessments, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework (2013). Based on our assessments and those criteria, management determined that we maintained effective internal control over financial reporting at December 31, 2015.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the transition period ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
